General Information:

Benedicte, came up in the Arna-Bjornar academy system breaking into the senior team at just 16 years old. At 180cm she is a dominate force in goal. She has a fast reaction time and the ability to distribute accurately which helped her be an instant interest to the national teams of Norway. She has been a constant with the national teams gaining more and more responsibility. With a great training background and high level of play at such a young age she is developing more and more into a complete keeper with big time potential.
